

1. K-LOVE serves me in the community by providing me with wholesome music to listen to. It is safe for me to have on the car radio with my child in the car. I do not have to worry about bad language. This would benefit others as well.

2. If K-LOVE was not available, I would miss a safe message through music that I know has transformed my life and the lives of others. I have not found another source of such comfort and music on the radio lately. This is in the community service as well, as the more people who feel calm and joyful, the less violence and distrust we may have in the world, which would make it a much better, safer place to live in. The station provides hope to many people who need it, and this is important whether the area be metropolitan or rural.

Thank you for your consideration of this matter.
